

# Moses Burkhardt

## Full Stack Software Engineer

913-217-5790 | [moses.burkhardt1@gmail.com](mailto:moses.burkhardt1@gmail.com) | [LinkedIn](#) | [Portfolio](#)

### **Skills:**

Languages: HTML | CSS | JavaScript | Python | Go | SQL

Frameworks: React | Django | Express

Databases: MongoDB | MySQL | Teradata | PostgreSQL

Other: Git | Node.js | MVC Architecture

### **Projects:**

React Twitter Clone: A twitter clone that uses the MERN stack. Contains base user and tweet functionality as well as real-time messaging through Socket.io.

Project Connect: A collaboration between UX designers and software engineers. A social-media platform that allows collaboration between creatives. Create or join projects and collaborate with other creative professionals.

Django Chat App: A real-time chat app that uses Python, Django, and PostgreSQL.

### **Education:**

**General Assembly, Remote**

Dec 2021 – Jun 2022

*Software Engineering Immersive (SEI)*

**University of Kansas**

May 2019

*Bachelor of Science in Mathematics*

### **Experience:**

**General Assembly, Remote**

Dec 2021 – Jun 2022

*Software Engineering Immersive (SEI)*

- Completed intensive 450-hour course covering the MERN stack, testing, Python, Go, and MVC architecture
- Collaborated on a project with several UX designers to create Project Connect, a collaboration tool for creatives. Handled all pull requests, created and influenced back-end models/controllers, and developed several major front-end features.

**Anthem, Inc.**

Aug 2021 – Present

*Actuarial Analyst II*

- Model the financial impact of drug formulary changes and present to clinicians, pharmacists, and senior actuaries
- Collaborate with 6 other team members to complete model prerequisites and all models before the modeling deadlines
- Collaborate with outside parties, including clinicians, pharmacists and other actuaries to develop and validate assumptions used in modeling as well as results of those models
- Pull and validate data using SQL and Teradata

*Actuarial Analyst I*

Dec 2019 – Aug 2021

- Modeled and tracked initiative worth approximately \$15 million
- Compiled and presented results for major initiatives to executives
